Empathy Map Canvas:

An Empathy Map Canvas is a visual tool used to understand the user's needs, thoughts, feelings, actions, challenges, and expectations. It helps the development team understand the customer's perspective and build a solution that solves real problems. For a Credit Card Approval Prediction project, the empathy map focuses on the applicant's experience during the credit card approval process.

Example:

EMPATHY MAP CANVAS

EMPATHY MAP CANVAS

THINKS	FEELS
Will my credit card be approved?	Worried about rejection
Is the process fair?	Wants a quick decision
SAYS	DOES
"I need a credit card quickly."	Fills application
"I hope it gets approved."	Enters personal and financial details
PAINS	
• Long approval time	
• Manual verification	

• Unclear approval process	
GAINS	
• Fast approval prediction	
• Accurate and fair decisions	
• Better customer experience
